

ONLINE TRAINING OFFERINGS

LIVE WEB-BASED TRAINING

To enable ongoing capability building and the upskilling of professionals and teams remotely, Leading Edge Group provides a suite of customised learning programs that are delivered through a live web-based virtual classroom.

Participants will learn in real-time using an interactive online training platform. Brainstorming, ideation and discussions happen in real-time. Everything remains the way it is. The only difference is a virtual, online classroom that uses technology to support instruction and learning. Our training content is tailored so that it is relevant and immediately applicable within your organisation, department or team.

Here are some of the live web-based courses on offer:
